PROFESSIONAL EXPERIENCE

Sales Application Engineer I & UX Designer

DAIKIN | 2025-present

~ Optimize "internal user experience" by providing high-fidelity technical support and synthesizing feedback from sales and customers into actionable requirements to close UX gaps and maintain market relevance

Intern, UX Designer

DAIKIN | 2024-2025

~ Researched, designed, and implemented user interface of collaboration center, featuring file sharing knowledge base, forum, and support center based on user feedback

Research Assistant

CORNELL | 2025

~ Created prototypes and graphics and conducted and analyzed usability workshops to create a resource to provide care to remote mental health supporters

Intern, UX Designer

BEYOND GREEN | 2024

~ Created and designed website for new course offering
~ Created, designed, and managed lesson summaries, handouts, and resources for Teachable course

Intern, UX Design Researcher

WATERFORD.ORG | 2022

~ Conducted usability sessions with pre-k students by leading them through activities, observing their behaviors, and discussing their experience
~ Summarized results in reports, created severity ratings, and collaborated with team members to discuss adjustments to activities

LEADERSHIP

Teaching Assistant

HCI COURSE | 2024

~ Assisted with course logistics, taught design principles in discussion sections, graded student assignments

Designer, Events Manager

MEDIUM DESIGN COLLECTIVE | 2023

~ Planned and organized events to showcase design projects in collaborative art exhibition, created marketing materials

PROJECTS

Catalog Website | Web Development

~ Using PHP, developed and coded a catalog site for both college students to explore second-hand items and administrators to manage catalog

AppleFest Website | Web Development

~ Using HTML/CSS, designed and coded a new promotional website for a local event

Research Website | Web Development

~ Using HTML/CSS, collaborated to code an interactive site for a non-profit research organization

Recipe Website | Website Design

~ Using WordPress, created interactive elements, sliders, and posts for a website that provides original homemade recipes and donation opportunities for food banks

UX Shadowing | App Prototyping

~ Using Figma, created a student educational program interface

Media and Marketing | Digital & Media Arts Creation

~ Using Canva and various video editors, designed promotion material for PYCO
